End of a long Tradition

The long co-operation between S. Hirzel Verlag, Stuttgart and the European Acoustics Association (EAA) which resulted in the common European Journal *Acta Acustica united with Acustica* comes to an end by 31st December 2019.

Thus, publication of the established and renounced Journal will be discontinued with its final Issue

- *Acta Acustica united with Acustica*, Vol. 105, No. 6, November/December 2019.

Brief history

The history of the Journals on Acoustics at S. Hirzel Verlag leads back to the

- *Akustische Zeitschrift* (1936).

From 1951 on it was transformed in

- *Acustica*, Vol. 1 (1951) to Vol. 81 (1995), ISSN 001-7884.

In 1996 „*Acustica*“ (S. Hirzel Verlag) was united with the young journal „*Acta Acustica*“ (SFA/EAA) to form

- *Acustica. Acustica united with Acta Acustica*, Vol. 82 (1996) – Vol. 86 (2000), ISSN 1436-7947

In 2001 the Journal was renamed into

- *Acta Acustica united with Acustica*, starting from Vol. 87 (2001), ISSN 1610-1928.

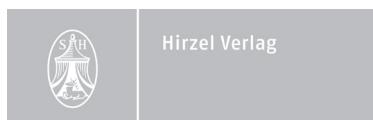

From January 2006 on, besides print publication, *Acta Acustica united with Acustica* entered the online world at IngentaConnect platform with its current issues. From March 2014 on the complete archive back to „*Acustica*, Vol. 1 (1951)“ has been digitalised and put online at IngentaConnect. From May 2016 on *Acta Acustica united with Acustica* had changed its subscription-based publishing model to a hybrid publishing model, thus besides classical Subscription articles the new Open Access publication route was introduced.
