# Table of Contents

## Fast Track Articles

### Building Acoustics

I. Kim, J. Ryu, S. Lee  
Influence of Perforated Ceiling on Floor Impact Sound Insulation in Reinforced Concrete Buildings  
727

## Scientific Papers

### General Linear Acoustics

L. Wang, R. Chen, Y. You, W. Wu, R. Qiu  
A Unified Correction Method for the Acoustic Refraction (UCMAR) Caused by a Three Dimensional Shear Layer  
732

### Ultrasonics

M. Dhiman, K. Singh, J. Kaushal, A. Upmanyu, D. P. Singh  
Ultrasonic Study of Molecular Interactions in Polymeric Solution of Polypropylene Glycol-400 and Ethanol at 303 K  
743

H. Xiping, Z. Haidao  
A Directional Converter of Longitudinal Vibration with One Input and Multiple Outputs  
753

### Physical Acoustics

A. A. Ostapchuk, K. G. Morozova, D. V. Pavlov  
Influence of the Structure of a Gouge-Filled Fault on the Parameters of Acoustic Emission  
759

### Environmental Noise

F. B. Pokorny, M. Fišer, F. Graf, P. B. Marschik, B. W. Schuller  
Sound and the City: Current Perspectives on Acoustic Geo-Sensing in Urban Environment  
766

O. Schwab  
Construction of Ground Subtracks for Aircraft Noise Calculations Using an Estimate of Lateral Flight Dispersion  
779

### Building Acoustics

K. Eggenschwiler, V. Sperdin, C. Hof, S. Schoenwald  
New Investigations into Measurement Techniques Using the Pendulous Hammer to Assess Acoustic Insulation in Relation to User-Generated Noise in Residential Buildings  
784

### Acoustic Materials and Metamaterials

S. Liu, Y. Zhao, D. Zhao, L. Feng, X. Shi, L. Chen  
Tunable Band Gap Structures of Acoustic Metamaterials with Magnetorheological Elastomer Cladding Layers  
796
Computational and Numerical Acoustics

V. Lysachko, D. Kuryliak
Acoustic Plane Wave Diffraction from a Circular Soft Ring ................................................................. 805

Y. Shi, S. Lee
Airfoil Trailing Edge Noise Reduction Using a Boundary-Layer Bump ................................................. 814

K. Been, W. Moon
Reconsideration on Helmholtz-Kirchhoff Integral Solutions for Boundary Points in Radiation Problems .... 827

Musical Acoustics

R. Tournemenne, J. Chabassier
A Comparison of a One-Dimensional Finite Element Method and the Transfer Matrix Method for the Computation of Wind Music Instrument Impedance ................................................................. 838

Technical and Applied Papers

J. Li, P. Yang, S. Li
Reduction of Sound Transmission Through Finite Clamped Metamaterial-Based Double-Wall Sandwich Plates with Poroelastic Cores ................................................................. 850

E. Burke, J. Hensel
Sound Source System for Investigating the Auditory Perception of Infrasound Accompanied by Audio Sound (Open Access) ................................................................. 869

F. Pausch, J. Fels
MobiLab – A Mobile Laboratory for On-Site Listening Experiments in Virtual Acoustic Environments .......... 875

Short Communications

W. Liu, Y. Yang, X. Guo, Y. Wang, Y. Shi
Source Localization in a Deep Ocean Using the Time Difference of Multipath Arrivals ................................ 888

Instructions for Authors .......................................................................................................................... 892

Editorial Board ...................................................................................................................................... 897

European Acoustics Association News .................................................................................................. 898
